## About

Product Designer with 3 years of experience at Schema, designing digital products and experiences for clients including Factor AE, Open edX, and ClearDemand. Experienced across UX strategy, interaction design, visual design, and product thinking, with a focus on translating complex requirements into clear, intuitive experiences. I bring a strong visual communication perspective to cross-functional teams, balancing user needs, business goals, and thoughtful design execution.

## Experience

### Schema Education *Product Designer*

April 2024 – Present

- Directed mobile UX strategy for a major open-source learning platform, aligning iOS and Android account experiences through parity decisions, interaction design, and a full account-flow overhaul
- Migrated existing components into a new shared library and remapped legacy color styles to Paragon variables. Filed accessibility tickets upstream and co-presented "Shared Design Collateral" at the Open edX Conference.
- Drove foundational UI decisions for a leading open-source learning platform used by institutions worldwide, building cross-team alignment and shaping the authoring experience for instructors
- Contributed production-minded UI patterns across three concurrent product initiatives, helping translate design intent into engineering-ready components and closing gaps between design and implementation
- Used AI-assisted design-to-code workflows to contribute to code-first design system, translating design intent into reusable UI patterns and improving collaboration across design and engineering
- Led end-to-end product design across key experiences, defining UX, information architecture, visual direction, and scalable UI patterns delivering rationale to client
- Owned Open edX's mobile Figma file for FY26, restructuring it into a shared library with templates and color variables, the groundwork for Schema's Shared Design Collateral work.

### Marketeq Digital *UX Research / Design*

May 2023 – September 2023

- Performed comprehensive competitive analysis between platforms for an enterprise cloud-computing SaaS to ensure universal accessibility of varying technical abilities
- Conducted Heuristic evaluation auditing the internal software of admin panels, sidebars, top navigation bars, and interactive design features to provide the base necessity of a working admin panel
- Gathered synthesized data to initiate innovative features that have not been seen on Headless CMS platforms while working in tandem of Senior Designer

### Prazenta LLC *Graphic / Presentation Design*

November 2020 – August 2021

- Redesigned dynamic layouts/compositions while adhering to brand guidelines using Powerpoint, Illustrator
- Created templates to maximize hierarchy to enable ideal flow within layouts
- Complete service specifications before sending back to clients to ensure industry-standard quality

## Education

|                             |                                             |                     |

| BA, Design and Applied Arts | California State University Dominguez Hills | Aug 2018 – May 2020 |
| Associate of Psychology     | Grossmont Community College                 | Aug 2015 – May 2018 |

## Skills

### TOOLS

- Figma
- Components & Variables
- Prototyping
- FigJam
- Claude Code
- GitHub
- Notion
- Confluence
- Adobe Illustrator
- Adobe Creative Suite
- PowerPoint

### DESIGN

- Product Strategy
- Interaction Design
- Visual Design
- Design Systems
- Design Tokens & Variables
- Information Architecture
- Rapid Prototyping
- Usability Testing
- UX Research
- Accessibility (WCAG AA)
